
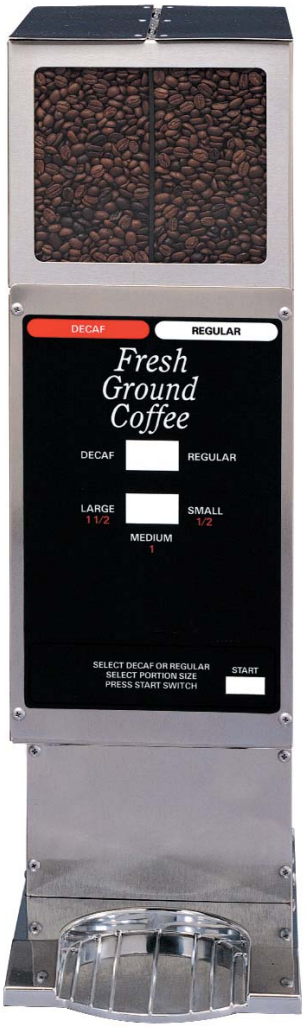
250 Series

Dual Hopper Coffee Grinders

MODEL 250



MODEL 250-3A

Grindmaster Corporation's 250 Series offers fully automatic portion control, positive bean flow and precise portioning at all weights with all coffees, even oily dark roast and flavored varieties. These units have precision grinding burrs for accurate grind profile and fast grinding every time to accommodate all brewing methods.

GRINDMASTER™
CORPORATION

Standard Features:

- Easy and accurate dispensing of all coffee roasts and flavored coffees
- Precise, consistent throws at all weights
- Large, dual hoppers which hold two coffee types
- Portioning individually set for each coffee type
- Patented portioning system gives unit a wide dispensing range
- Large grinding burrs for excellent grind profile and fast grinding time
- Accommodates all types of brewing equipment
- Patented universal brew rails accept all brew baskets
- 1/2 HP motor with circuit breaker
- Grindmaster Corporation's exceptional warranty**
- Troubleshooting guide with toll-free service number affixed to back of each grinder
- **Special Burrs Assure Accurate Grind -** Grindmaster Corporation's world famous burrs are precision ground and lapped in pairs to provide an efficient uniform grind profile proven by RoTap. This results in the best profile and most consistent throw.

**** Grindmaster Corporation's Warranty:**
Burrs - 4 years parts (or 30,000 pounds of coffee, whichever comes first), 1 year labor; All other components - 2 years parts, 1 year labor

Options:

- "A" Models feature large and small portion sizes for each coffee type
- "AB" Models feature large and small portion sizes for each coffee type and Grindmaster Corporation's exclusive automatic Grind-Selector™, which allows users to select the appropriate grind settings by coffee type or portion size
- "3A" Models feature large, medium and small portion sizes for each coffee type
